

Free Hire Temporary Accessible Car Parking Equipment

Glenelg Shire Council's Rural Access Program has temporary accessible car parking equipment for hire free of charge.

The equipment can be utilised at community events to provide temporary accessible car parks for people holding a disabled persons parking permit.

It enables organisers of festivals or events to set up the accessible car parks close to the main entrance ensuring that people with disabilities are not required to travel long distances to reach the entrance of the event.

Organisers of community events such as festivals and fetes are able to borrow the equipment free of charge from Glenelg Shire Council. A booking is required for use of the equipment and advance notice of at least two weeks before the event or festival is recommended.

Bookings can be made through Glenelg Shire Councils Community Development Officer (Access & Inclusion) on 5522 2359 or 0466 004 704 or email bcharman@glenelg.vic.gov.au .
