We respectfully acknowledge the Aboriginal and Torres Strait community living throughout the Glenelg Shire and the contribution they make to the Glenelg Shire's prosperity and wellbeing.

COUNCIL STRUCTURE

In Australia there are three tiers of elected government – local, state and federal. Local Government is the level of government closest to the people and gives people a say in matters affecting their local area. Councils are governments – they provide a vehicle for the expression of local democracy.

Councils are made up of two parts: the elected representatives (Councillors) and administration (council staff).

Elected Representatives:

The Glenelg Shire is an unsubdivided municipal district (no wards) and the number of Councillors assigned to the Council is fixed at 7.

Local Government Elections are held every four years. The next Local Government Election will be held in October 2024. Councillors are democratically elected by the residents and ratepayers of the municipality. Once elected, they are responsible for reviewing matters and debating issues before their Council. They take an Oath of Office to carry out this role impartially, to the best of their ability, and in the best interests of the municipality.

An elected Council sets the overall direction for the municipality through long-term planning and decision making. It adopts a strategic view of the future it wishes to achieve for its community and makes plans and policies to achieve this.

The council is responsible for appointing the Chief Executive Officer (CEO) and are also responsible for managing and reviewing the CEO's performance.

Council Staff:

Chief Executive Officer:

The CEO is the only staff member who is appointed by the Council. The CEO is responsible for managing the organisational structure for the Council, ensuring that Council decisions are implemented, the day to day management of the Council's operations and providing advice to Council.

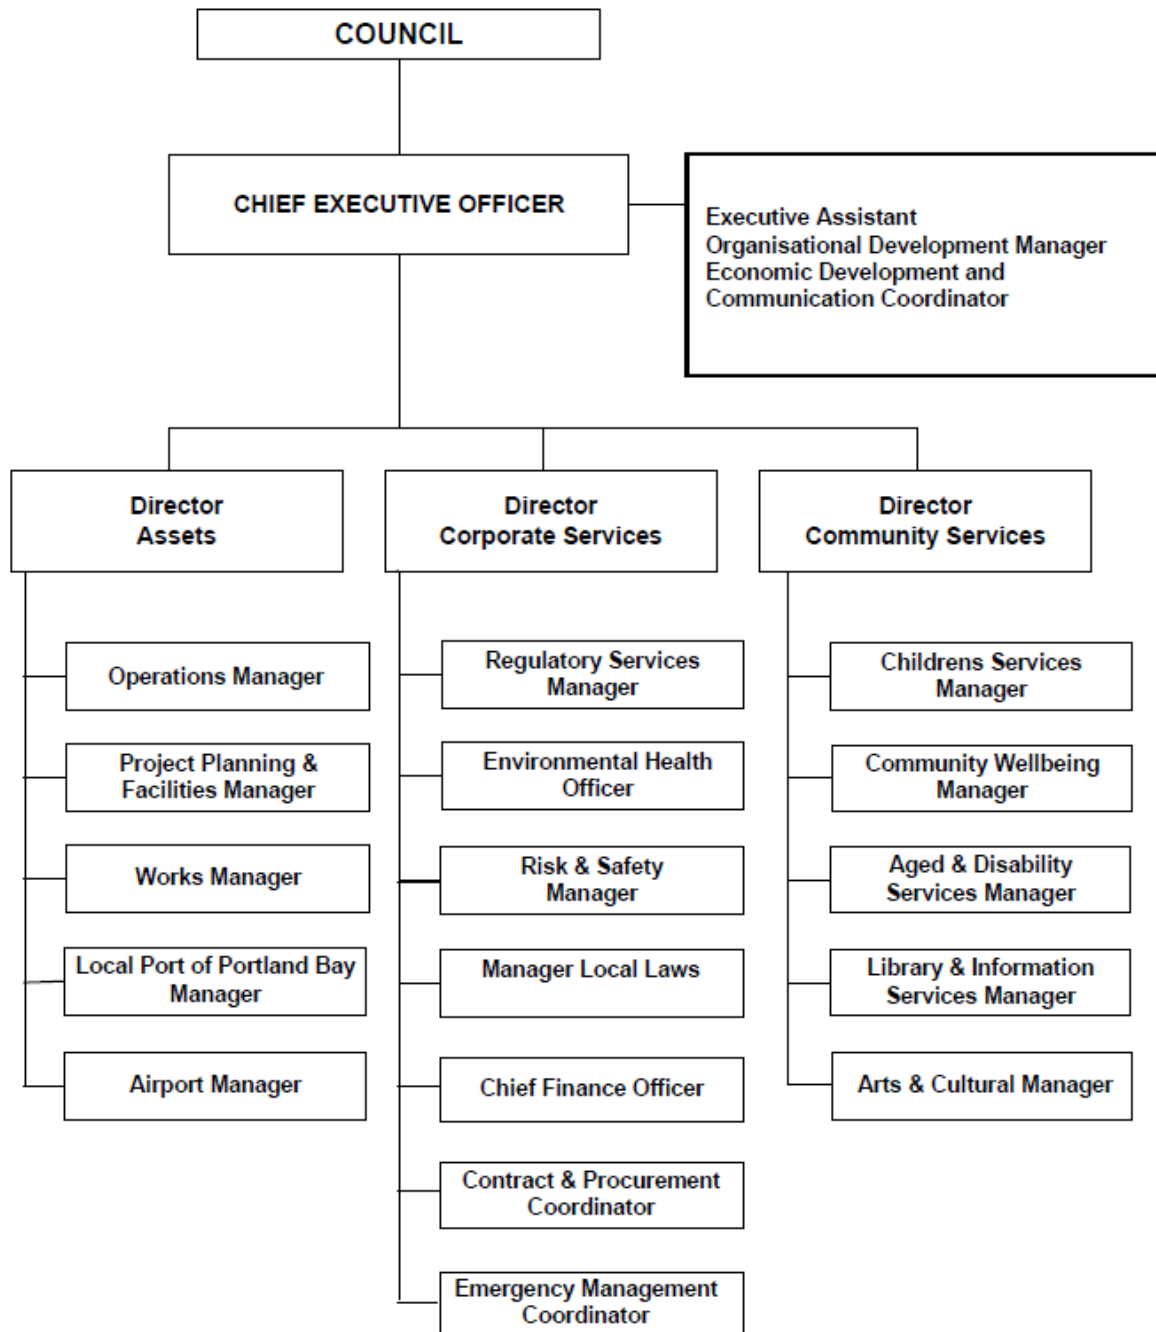

The CEO is also responsible for supporting the Mayor in the performance of his or her role and the development, implementation and enforcement of policies and protocols to manage interactions between Councillors and Council staff.

Council staff:

Council staff are the resource that ensures the day to day running of the organisation and the delivery of council services and functions.

Council staff are responsible for providing advice, implementing council's direction and taking action on council decisions. Council officers also provide advice and expertise that help a council to form policy decisions, along with delivering services and implementing decisions.
