

Did you know that people with disabilities represent a considerable proportion of your potential participant base?

Over four million Australians - around 19% of our population - have a physical, intellectual or other disability. This figure can at times increase to about 35% of the population if you include people with temporary disabilities.

People will choose to participate in festivals and events depending on the ease of access, quality and range of activities available to them.

Everyone benefits when access is better.

The One & All Inclusive Events Program helps you improve accessibility in four easy steps. To participate in the program, request a One & All Inclusive Events checklist from your Rural Access Officer.
